## RECIPE ADHERENCE

Right ingredients

Right Measurements

*Fill jigger completely to form a “bubble” top*

*Mixers still need to be measured, but a little more room for error*

*Right Tools – **USE YOUR JIGGERS!***

Right procedures and techniques, i.e. shake with ice and strain, rimming glasses, etc.

“Fill with”

*Recipe calculate costs which is why Bacardi & Cola says 3 oz Cola and “fill with”*

*Focus on “fill with” not the ounces of mix*

# COCKTAIL TERMINOLOGY

Aperitif - A beverage taken before a meal to stimulate the appetite. These beverages are usually wine, spirit, or bitters based.

Cocktail - A cocktail was originally defined as a mixed potable beverage containing merely spirit, sweetener, water, and bitters. Today, it is typically considered a drink composed of a base spirit, a modifying flavor, and water imparted from shaking or stirring. A cocktail is usually 3 to 5 ounces in volume and served in a well-chilled cocktail glass or in a short glass over fresh ice.

Collins - A tall mixed drink made with a spirit, freshly squeezed lemon juice, sugar, and soda water. This drink should be served in a tall glass with a volume of about 10 to 14 ounces.

Digestif - An after-dinner drink that aids digestion.

Dry - The addition of dry vermouth.

Extra Dry - Little, to no vermouth.

Float - A small portion of spirit carefully layered over another of greater density. This is done with a bar spoon, cherry, or carefully on the side of the glass.

Highball - A tall drink consisting of one spirit and one mixer served in a tall glass usually 10 to 12 ounces in volume.

Martini - Liquor is served up or on the rocks, well chilled in a cold coupe glass.

Neat - A term for serving a spirit straight, without mixers or ice.

On the Rocks - Ingredients poured/served over ice.

Perfect - equal parts, sweet and dry vermouth.

Proof - The system by which alcoholic strength of a spirit is measured. A spirit's proof is equal to twice its amount of alcohol by volume.

Sweet - The addition of sweet vermouth.

Tall - A "Tall" cocktail is prepared in a larger glass but doesn't result in more liquor. It will result in more "mixer" and usually preferred by guests that don't want a heavy alcohol taste.
