BAR BEST PRACTICES

BEST PRACTICES

Whenever possible, order 1L bottles over 750mL bottles.

The only acceptable fresh lemon and lime juices to use in cocktail recipes are Twisted Alchemy juices.

Jiggers are **mandatory**. Standard pours*: single: 1.25oz, double/shaker cup: 2.5oz (**unless pour is limited by local requirements*).

All garnishes are prepped/cut **daily** and discarded at the end of the show. Pre-cut garnishes are also acceptable, purchased no earlier than one day before the show.

- **All Bars:** Lemon and lime wheels
- VIP: lemon and lime wedges, cucumber wheels, and tajin
- Top Shelf carts: lemon and lime wedges
- Dedicated N/A bars: cucumber wheels and tajin

Back bars should be labeled accordingly using a label maker. Ensure a photo of back bar setups is approved and included at each bar. There should be no personal items on the back bar. **REMINDER:** our venues are strawless. All straws are by request only and should be kept out of guest view. Bamboo Piranha straws are approved.

Make sure pour spouts are the same color/material throughout the display. Begin phasing out posi-pours. Recommended bar tools can be purchased through Ed Don via your Live Nation GM. Click here to view the [Ed Don order guide](#) and [Ed Don SOPs](#)

No branded bar mats in VIP, Top Shelf, and linear bars. Any branded bar mats should be representative of what is at the stand.

Fill cups **all the way** with ice. **Ice last** for all shaker cocktails. Putting ice in the cup last allows us to ensure we are pouring the proper amount of liquor and prevents the drink from getting watered down as we build it.
